**Web-based communication network for automated financial aid management,
decides student eligibility for financial aid using collected
personal information based on which selection report is produced**

Original Titles:

Virtual financial aid office

Alerting Abstract ...NOVELTY - The amount of financial aid available to each student is estimated and personal information of each student is collected. The eligibility of student with respect to each type of financial aid is decided by a processor (22), based on the collected information. A report indicating the selected students and their respective financial aid packages is generated by a reporting unit (28)...web-based application; automated financial aid provision method; and automated financial aid application processing method.

...

...USE - For automated and online financial aid management related to educational services through Internet.

...

...processing time, by avoiding the need for personal visits or classifications and other direct manual assistance from financial entities.

...

...DESCRIPTION OF DRAWINGS - The figure shows an explanatory diagram indicating virtual financial aid system.

Title Terms.../Index Terms/Additional Words: INFORMATION ;

Original Publication Data by Authority

Original Abstracts:

A virtual system and method is disclosed for administering, evaluating,

and processing financial aid for post - secondary students . The subject virtual system is preferably hosted in a web-based environment and is accessible by and/or interactive with various entities such as students, educational institutions , student financial aid processing centers , government agencies related to educational funding , and loan guarantors . Particular features and methodology are preferably provided in accordance with the virtual system such that a student can conveniently obtain educational funding within a completely automated and integrated online process. The virtual system preferably provides features such as direct links to applications for federal funding, an electronic messenger service to communicate among networked system entities, and a financial aid estimator to predict amounts of aid for which a student is eligible. A user of the virtual system can apply for a personal identification number (PIN) and complete a student interview process to initiate a financial aid processing. Such information is then preferably combined into a personalized user file with information electronically obtained and verified from outside sources. This file then undergoes a review process, including compliance checks, quality control, and loan certification. Once a file is sufficiently reviewed, aid can then be routed to a student 's specified institution for use towards his or her educational expenses. Review and reporting services are preferably available throughout this automated process such that a user can conveniently track certain information , including progress of the financial aid process steps.

Claims:

...1. A web-based communications network for automatically administering a controlled relationship among students, educational institutions , and student financial aid processors and for providing selectable services related to student financial aid application and administration, said selectable services comprising : a financial aid estimation service for predicting the amount of financial aid that may be available to a given student ; a student interview service for collecting personal, financial, and educational information about a given student; a file processing service , available to student financial aid processors, for reviewing information about a given student and for determining eligibility for various types of financial aid that are available to a student; and a reporting service , available to educational institutions , for generating reports of selected students and their respective financial aid packages.

On-line assistance provision method for college students, involves providing name of professor who is taking particular course at academic institution , in response to query received from user

Original Titles:

On-line system for **providing** assistance to students

Alerting Abstract ...NOVELTY - Information about courses taken by each user, is stored in a memory of a host computer. The name of a **professor** who is taking a particular course at an academic **institution** , is provided, in response to a query received from the user, so as to allow the user to contact the **professor** . The user terminal is connected to terminals of other users, to enable real-time on...
...electronic scrap book compiling method; on-line assistance **provision** system; and electronic **scrap** book compiling system...

...USE - For **providing** on-line academic and social **assistance** to college students, prospective students and alumni of academic **institutions** .

...ADVANTAGE - Enables students to help other students and to succeed in college or **university** environment. Relieves stress and reduces **depression** of **students** , by **providing** reliable **information** about courses and **professors** .

Title Terms.../Index Terms/Additional Words: **PROVISION** ; ...

... **INSTITUTION** ;

Original Publication Data by Authority

Original Abstracts:

...Members can contact other members on-line, so that prospective students, for example, can obtain **information** about particular colleges or **universities** from other students. **Students** can obtain **information** about specific courses **from** others who have taken the courses. The system includes a repository of papers and assignments...

...method by which each student can conveniently maintain a scrapbook pertaining to his or her **college** experience. The system **also** provides a **personalized** set of discount **coupons** , **tailored** to the needs of a particular student.

Claims:

What is claimed is: **1**. A method of **providing** on-line assistance to persons having an affiliation **with** an academic **institution** , comprising: a) receiving **information** about a plurality of **users** , each of said plurality of **users** having an affiliation with an academic **institution** , and storing said **information** in a memory of a host **computer** , wherein said **information** includes **data** on courses taken by each of said plurality of **users** , **b**) accepting a query, from one of said

plurality of users, concerning a particular course at an academic institution , and c) providing a name of at least one person who has taken or is taking said particular course at said academic institution , so as to allow said one of said plurality of users to contact said at least one person.

Scholarship information provision method through Internet, involves transmitting scholarship search request form to searcher that is branded to specific educational or institutional sponsor

Original Titles:

Scholarship search method and system

Alerting Abstract ...NOVELTY - The scholarship search request form branded to a specific educational/institutional sponsor, is transmitted to a searcher (110). The search request form is completed and posted to

service provider. The scholarship database is searched based on the search request page. A set of scholarship corresponding to information entered by the user are returned. A third party service provider provides request forms branded to different sponsors. DESCRIPTION - An INDEPENDENT CLAIM is included for scholarship searching service providing system ...

...USE - For providing scholarship information through Internet...

...ADVANTAGE - The student can conveniently search for available scholarships .

...

...DESCRIPTION OF DRAWINGS - The figure shows the scholarship search system

Title Terms/Index Terms/Additional Words: INFORMATION ; ...

... PROVISION ;

Original Publication Data by Authority

Original Abstracts:

The present invention provides an improved scholarship searching service that includes a scholarship search server that is connected to a plurality of client computers. The server presents each client with an interface that can be branded and customized to any institution, such as a college or financial aid provider, giving the appearance that the search service is being provided by the institution. The server provides a set of scholarships based on user information and in response to the user selecting one of the one or more search options. In one preferred embodiment, the scholarship server and thus the scholarship service is provided and administered by a third-party provider, in accordance with the desired specifications of a sponsor institution. In this embodiment, a provider institution can pay the third-party provider to provide the service as a gratuity to the sponsoring institution.

Claims:

1. A method of providing scholarship information, comprising: providing to scholarship searchers by a third party service provider scholarship search request forms, each scholarship search request form transmitted to a scholarship searcher being branded to a specific educational or institutional sponsor; completing the scholarship search request form; posting the scholarship search request form to the service provider; searching a scholarship database in accordance with information provided by the searcher on the scholarship search request page; returning a set of scholarships corresponding to information entered by a user; and presenting to the searcher a description of scholarships in the set, the third party service provider providing scholarship search request forms branded to different educational or institutional sponsors.

Scholarship information provision method through Internet, involves transmitting scholarship search request form to searcher that is branded to specific educational or institutional sponsor						

Original Titles:

Scholarship search method and system

Alerting Abstract ...NOVELTY - The **scholarship** search request form branded to a specific educational/institutional sponsor, is transmitted to a searcher (110). The search request form is completed and posted to service provider. The **scholarship** database is searched based on the search request page. A set of **scholarship** corresponding to information entered by the user are returned. A third party service provider provides

DESCRIPTION - An INDEPENDENT CLAIM is included for **scholarship** searching service providing system...

...USE - For providing **scholarship** information through Internet...

...ADVANTAGE - The student can conveniently search for available
scholarships .

• • •

...DESCRIPTION OF DRAWINGS - The figure shows the **scholarship** search system

Original Publication Data by Authority

Original Abstracts:

The present invention provides an improved **scholarship** searching service that **includes** a **scholarship** search server that is connected to a plurality of client computers. The server presents each client with an interface that can be branded and **customized** to any institution, **such** as a **college** or **financial aid provider**, giving the appearance that the search **service** is being provided by the **institution**. The server provides a set of **scholarships** based on user **information** and in response to the user selecting one of the one or more search options. In one preferred embodiment, the **scholarship** server and thus the **scholarship service** is provided and **administered** by a third-party provider, in accordance with the desired specifications of a sponsor **institution**. In this embodiment, a provider **institution** can pay the third-party provider to provide the **service** as a gratuity to the sponsoring **institution**.

Claims:

1. A method of providing **scholarship** information, comprising:
providing to **scholarship** searchers by a third party **service** provider
scholarship search request forms, each **scholarship** search request form
transmitted to a **scholarship** searcher being branded to a **specific**
educational or institutional sponsor; completing the **scholarship** search

request form; posting the **scholarship search request** form to the service provider; searching a **scholarship** database in accordance with information provided by the searcher on the **scholarship** search request page; returning a set of **scholarships** corresponding to information **entered** by a user; and presenting to the searcher a **description** of **scholarships** in the set, the third party service provider providing **scholarship** search request forms branded to **different** educational or institutional sponsors.

105 access to any number of **products** available through the system. For
purposes of this detailed description, a Web Site is an...

...from the spirit of the invention.

8

[0038] A product access Web Site created or **modified** using the Site
editor module 101 will provide the product consumer(s), such as students
or FAO(s) with access to **products** from the system 100. An exemplary
Site editor user is a school representative who could use the Site editor
module 101 to create one or more product access Web Sites **tailored** to
provide a product access Web Site user with **financial aid products**
and other **products**. Further, a user can create a Web Site **tailored** to
a particular type of product access Web Site user. For example, a **school**
representative can create a Web Site **tailored** to the **school** 's FAO
staff and a one or more Sites **tailored** to the **school** 's students. As a
school may have different types of students, a user can create a Web
Site **tailored** for each type of student. For example, a **university**

representative can create a Web Site **tailored** to the needs of its undergraduate students and their parents, and also create Web Sites for each of its graduate programs **tailored** to the needs of its graduate students in those programs.

[0039] The user enters the...

Detailed Description

Detailed Description

... view grade information, while preserving confidentiality of
information.

User manager 154 integrates the student-centric **information** with
existing network-based systems of an associated educational **institution**
. In an embodiment of the present invention, user manager 154 includes a
runtime component and a batch component that periodically access and
extract **information** contained in external **institution** databases in

order to maintain current studentcentric **information** . User manager 154 facilitates integration of education **support** system 100 with existing or legacy network-based systems, including proprietary institutional electronic networks and systems related to grades; registration, course schedules, **financial aid** , etc., without requiring **modifications** to existing systems or security procedures.

According to an embodiment of the present invention, application...

Detailed Description

Claims

Detailed Description

... and universities) provide various forms of assistance in obtaining
financial aid for potential students.

Typically, **financial aid** offices at **schools** assemble financial

award

information including, for example, **financial aid** award packages containing monetary awards which are funded from one or more grants, **scholarships**, work study or teaching assistanceship jobs, and/or loans. Representatives of the **financial aid** offices will often tailor these **financial aid** award packages for the potential students and, therefore, the awards will often be different (based...new method and apparatus for providing students and parents with education financing information, particularly **financial aid** award packages, where the student/parent can: (i) easily review the **financial aid** award package; (ii) review cost projections (e.g., loan repayment **information**); (iii) view and select potential lenders; (iv) **modify** a **financial aid** award package to include, for example, other sources of funds outside the award or to ...

...a need for a method and system which can: (i) reduce the costs for a **school** to transmit **financial aid** award packages to potential students; (ii) quickly **modify** the **financial aid** award packages based on accept/decline/postpone decisions of the students/parents; and (iii) provide...maintaining an electronic site on a computer network to which the user may connect; sending **data** to the user over the network for presenting at least one electronic screen which contains financial award **information** concerning a potential student of an educational **institution**, the **financial** award information including a monetary award which may be used by the student to attend the educational **institution**, the award including funds taken from at least one of grants, **scholarships**, loans, and future employment of the student; and sending **data** to the user over the computer network for presenting at least one electronic screen which includes an input field operable to receive **data** from the user representing funds other than those of the award to aggregate with the award to obtain a **modified** award.

A method according to yet another aspect of the present invention includes the steps...

...electronic site on a computer network to which users and an administrator of an educational **institution** may connect; sending **data** to each of the users over the network for presenting at least one electronic screen which contains financial award **information** concerning potential students of an educational **institution**, the financial award **information** including a monetary award which may be used by the respective students to attend the educational **institution**, the award including funds taken from at least one of grants, **scholarships**, loans, and future employment of the student; sending **data** to the administrator over the computer network for presenting at least one electronic screen which includes reporting **information** indicating whether respective users have at least one of accepted, declined, and deferred a decision on, the respective awards; and sending **modified** financial award **information** to at least one of the potential students, the **modified** financial award **information** including at least one **modified** monetary award based on the reporting **information**.

sending **data** to the administrator over the computer network for presenting at least one electronic screen which...

...receive at least one search criteria to compare against a database containing the financial award **information** ;
searching the database and extracting the financial award **information** which meets the search criteria; and
sending **data** to the administrator over the computer network for presenting at least one electronic screen which includes the financial award **information** which meets the search criteria. I I 1. The apparatus of claim 109, wherein the...date.
1 12. The apparatus of claim 104, wherein at least one of the reporting **information** , reporting results based on ad hoc queries and other reports can be downloaded to another system of the educational **institution** for conversion to a format useful to the **institution** for updating the **institution** 's other system electronically.

Detailed Description

Detailed Description

... scholarship applications for which companies.

In a preferred embodiment, the third party charitable foundation
identifies **universities** or other education providers from which to
solicit **scholarship** selection 3 0 committee members. The third party
charitable foundation can work with the **College** of Education of a given
university, or another related segment of the **university** to solicit
members. It is contemplated that the third party charitable foundation
can work with the Dean of the **College** of Education to develop potential

8

committee members, or can post advertisements for positions, or hold
information sessions to develop a...

...yet another preferred embodiment, the third party charitable foundation
selects and confirms members of the **scholarship** selection committees.

In one embodiment, the 5 third party charitable foundation identifies
five potential members (three primary, two alternates) for each

scholarship selection committee. The invention further includes the third party charitable foundation arranging dates and locations for the meeting of the **scholarship** selection committees, including identifying hotels and/or office complexes with adequate facilities to handle such...

Abstract: The University System of Georgia and OCLC are building an innovative electronic library called GALILEO, the Georgia LIBrary LEarning online system. The new electronic library delivers bibliographic, abstract and full text information to more than 2,300 academic, public, technical and school libraries throughout the state. It uses software and online services from OCLC to build local databases and to merge diverse databases into a seamless information resource accessible through a single World Wide Web based interface. The result is a customized, virtual library for the students, teachers and faculty of Georgia's educational community, as well as increased efficiency in research, scholarship and academic achievement. Users access library holdings, journal databases, image collections, and reference resources using one interface, one search process and one desktop, whether in the library, laboratory, office or home. Their journey could take them to an electronic journal on the Web, to a database halfway around the world, or deep within their library's archives.

JCCC Financial Aid Office Student Satisfaction Survey, 1997.

Weglarz, Shirley
CORP. SOURCE: Johnson County Community Coll., Overland Park, KS. Office of Institutional Research.
51pp.
November 1998 (19981100)

In 1997, the Financial Aid Office Staff at Johnson County Community College (JCCC) in Kansas conducted a survey to gauge student satisfaction with the Student Financial Aid Office. Surveys mailed to 3,026 current and prospective JCCC students resulted in 299 usable responses. This report combines results for applicants for two types of financial aid (Federal and non-Federal), and also highlights the differences between

each kind of award. Appended...

...as tabled survey results. Major findings are presented under headings including overall satisfaction, types of **financial aid** received, ratings of **services** and contacts, length of wait, student likes and dislikes, interest in **scholarship search services**, suggested improvements, and Federal aid versus non-Federal aid applicants. In general, overall satisfaction, which...

...1) review phone procedures to decrease busy signals and waiting time; (2) continue to use **modified** "triage" procedures to help decrease time in line; (3) develop a comment card to monitor student satisfaction; (4) continue to refer students to free **scholarship search web** sites; (5) review the cost, staffing, and operational implications of offering additional limited evening hours; and (6) provide checklists to students detailing specific requirements and deadlines for various **financial aid** options. From School to Working Life: Resources and Services. Reference Circular No. 86-1.

Gibson, Merrilyn, Comp.

CORP. SOURCE: Library of Congress, Washington, DC. National Library Service for the Blind and Physically Handicapped.

46pp.

October 1985 (19851000)

Disabled students preparing for the transition from high school to working life will find current, practical information in this reference circular, which was prepared to facilitate the transition to higher education or directly to a work situation. The information is arranged according to three basic transition models: (1) without special services ; (2) with time-limited services ; and (3) with ongoing services . The first section includes: Sources of Financial Aid for Disabled College Students; College Handbooks of Interest to Disabled Students; Handicapped Students' Rights under Federal Law; and Books in...

...Searching. The second section includes discussions and references on: Job Training, Placement, and Career Matching Services ; Employment Networks and Information Referral Centers; Federal Programs; State Vocational Rehabilitation Agencies; and the Randolph-Sheppard Vending Facility Program. The third section includes discussions and references to nationally and locally supported employment programs. Information relating to all three models in the fourth section includes brief descriptions of adapted and special equipment and sources for additional information , as well as a reprint of The Rehabilitation Act of 1973, as Amended, Sections 501...

Awareness to Action.

Blanzy, J.

9pp.

December 1983 (19831200)

NOTES: Paper presented at the American Vocational Association Convention (Anaheim, CA, December 1983).

Macomb Community College in Michigan emphasized a commitment to economic development in an effort to combat a failing economy and falling resources for college funding . The college started by forming an internal task force to determine what alternatives were available to meet ...

...to these activities, workshops on economic development for local officials were conducted. In addition, the college redirected the emphasis of its continuing education department to professional development courses rather than recreational and home management courses. The college president and faculty members were involved in community networks and could take action to meet needs. For example, the college became involved in Comprehensive Employment and Training Act (CETA) activities and custom-designed training programs for industries such as Volkswagen and Hydea-matic. These contacts led to other networks of people who needed programs, could create jobs, or could provide input on job training...

...for Community Studies that provided survey research capabilities to the community as well as consultative services to local government and businesses. From an awareness of the problems of the community and a commitment to meeting needs on the part of the whole staff, the college has been able to take action to solve problems, to serve people, and to keep itself a viable and respected institution . Project for Minorities and Women in Research. Final Report of a Model to Increase Participation of Minorities and Women in Educational Research.

Escobedo, Theresa H.
CORP. SOURCE: Texas Univ., Austin.
17pp.

December 31, 1981 (19811231)
NOTES: For a related document see ED 192 630.

SPONSORING AGENCY: National Inst. of Education (ED), Washington, DC.

A 3-year project was established at the **University** of Texas at Austin to enhance the educational research skills of minorities and women. The project emphasized four areas: (1) **support** of participants' research efforts through **financial aid** for research activities, training seminars, **opportunities** to engage in research projects, access to **support services**, and **opportunities** to publish research findings; (2) participation in advanced levels of educational research design/methodology, report...

...editing, ethnographic research and computer utilization, and through attendance at conferences; (3) development of communications **networks** and dissemination of research results through publications, newsletters, and conferences; and (4) project evaluation/revision, and development of a model to guide policy and practices in other **institutions** involved in enhancing research **opportunities** for minorities and women. The **support** provided by the project helped seven participants to complete the doctorate **degree** and encouraged other participants to pursue further educational research activities. Other project outcomes included a questionnaire on **support** systems for Hispanic graduate students; a study on predictable characteristics of children's literature books...

...and published reports on specific projects. The model was found viable for implementation, with appropriate **modifications**, in other **institutions**. (MJL)

Preparing for the 1980 Statewide Plan for the Development of Postsecondary Education. A Discussion Paper for Use at the 1979-80 Regents/Commissioner's Regional Conference.

New York State Education Dept., Albany. Div. of Research.
17pp.
1979 (19790000)

...serious implications for higher education. A decline in undergraduate enrollments is projected that will require **adaptations** of **faculty**, **curricula**, and **procedures**. The growth in federal aid to postsecondary education is noted and implications of this policy are also examined.

Policy areas that are presented for discussion include: state aid and appropriations; student aid and student services for the traditional, adult, and underprepared student; degree programs; faculty; facilities; and research. Policy alternatives in each area for 1980 are suggested. (SF)

Signet Puts Student Loan Information on Internet
(Signet Banking has begun displaying student lending data on the Internet;
effort toward moving toward fully electronic college lending system)
American Banker, v CLX, n 38, p 22
February 27, 1995
DOCUMENT TYPE: Journal ISSN: 0002-7561 (United States)
LANGUAGE: English RECORD TYPE: Abstract

ABSTRACT:
...the Internet. This is the bank's initial effort toward moving toward a completely electronic college lending system. It has already displayed around 150 pages of data on its student lending services and measures, and information on state and federal scholarships and grants. The firm also displayed information about overall college application and loan process. Signet feels that the Internet is the most efficient way to reach its 10 mil+ users of high school and college age. With the Internet, banks can easily modify data as federal laws change and possible borrowers can quickly locate data without having to...
